Features and Benefits:

Color Touch Screen – 7" color graphical user interface guides users easily through menu functions.

Stainless Steel Enclosure provides maximum reliability in harsh environments.

Environmentally Sealed with no moving parts on the inside eliminating the need to clean filters and provides a protected environment for the internal electronics.

Dual Production Line Support allows the Marksman Duo XT to independently control two production lines from the same user interface.

I/O Board interface card option allows for connection to external system devices for automation and control logics.
