November 9-13

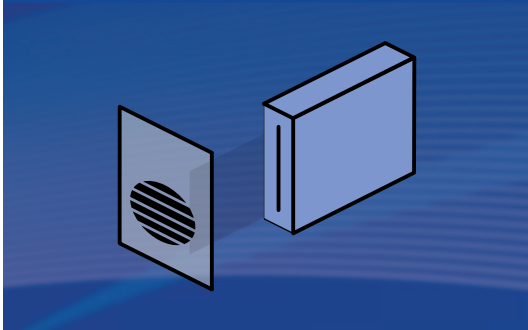

MONDAY, NOVEMBER 9

11:15 AM - 11:30 AM Central Time (US & Canada)

Leverage ERP Data to Save Time and Ensure Case Coding Accuracy

Reduce hours managing coding messages and experience fewer coding errors, product rework, logistics issues and in some cases, customer fines. Discover how to quickly link data directly into online printing systems without your IT department.

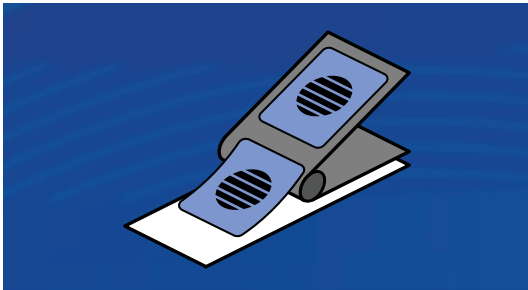

WEDNESDAY, NOVEMBER 11

11:15 AM - 11:30 AM Central Time (US & Canada)

Lower Your TCO With High Resolution Case Coding

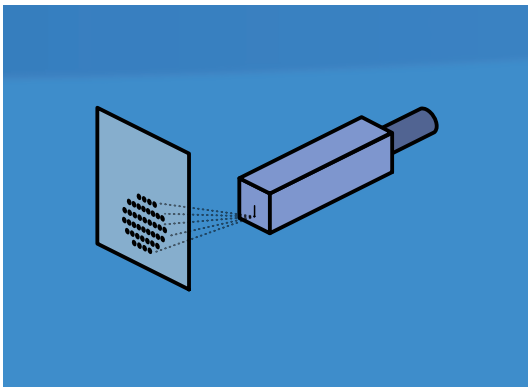

Maximize capital equipment ROI and lower total cost of ownership by investing in direct-to-carton high-resolution case coding. Explore the benefits of Trident-powered FoxJet printing systems which offer best-in-class reliability and minimal running costs due to the reparability of the robust internal components.

11:45 AM - 12:00 PM Central Time (US & Canada)

3 Benefits of All-Electric Label Applicator

Learn the top three pitfalls of using pneumatic, plant-air driven labeling systems and how all-electric labeling solutions assure consistent and accurate label placement with trouble free operation. Reduce downtime, lower maintenance and running costs with the FoxJet 7000 Series all-electric labeling system.

THURSDAY, NOVEMBER 12

1:30 PM - 1:45 PM Central Time (US & Canada)

Ensure Your Equipment is Reliable as You Implement Safety Regulations

Are your employees safe as they produce goods? Foxjet's range of Linx CIJ printers ensure reliability and comply with new safety regulations. Join Linx to learn how the Linx 8900 series of CIJ printers can help keep production lines going and employees safe.
